

Emergency Neurological Life Support

World Federation Neurological Scale

Version: 1.0
Last Updated: 5/23/2013

The World Federation Neurological Scale (WFNS) incorporates both the GCS score and features of the neurological exam.

WFNS Grade	Criteria
1	GCS 15
2	GCS 13-15 without neurological deficit
3	GCS 13-15 with neurological deficit
4	GCS 7-12
5	GCS 3-6

Although this score correlates better with clinical outcomes, most people still use the [Hunt-Hess Scale](#).
